Full right to work in the UK — no visa sponsorship required.

PROFESSIONAL SUMMARY

Front-end engineer with 4+ years building production web applications in React, TypeScript and Next.js. I turn complex requirements into fast, accessible and maintainable interfaces — from reusable component libraries and design systems to full user-facing features. Comfortable across the stack with Node.js and NestJS, and effective in agile teams through sprint planning, code review and reliable delivery.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3
Front-End: React, Next.js, React Hooks, Redux, responsive design, accessibility (WCAG), Storybook, design systems, component architecture
Back-End & APIs: Node.js, NestJS, REST APIs, WebSockets
Practices & Tools: Git, Agile/Scrum, code review, SOLID principles, testing, CI/CD, performance optimisation

PROFESSIONAL EXPERIENCE

- Software Developer

Sep 2025 – Present

No More Waste Technologies Ltd · United Kingdom (Remote)

 - Build and maintain customer-facing web and mobile applications for a sustainability platform using React, TypeScript and Node.js.
 - Develop reusable, accessible UI components and improve front-end performance and responsiveness across the product.
 - Collaborate in an agile team through sprint planning, code reviews and pair debugging to ship features reliably.
- Full-Stack Developer (Contract)

Apr 2025 – Jul 2025

MTN Nigeria

 - Delivered full-stack features for one of Africa’s largest telecom providers, using React on the front end and NestJS/Node on the back end.
 - Built and integrated REST APIs and translated product requirements into responsive, tested user interfaces.
- Frontend Developer (Contract)

Mar 2023 – Oct 2024

Lilab · Remote

 - Led a React redesign using React Hooks, improving application performance and user experience.
 - Engineered complex, reusable components — including a sliding calendar and a scheduling calendar — increasing UI flexibility and interaction.
 - Built and maintained a shared Storybook component library in TypeScript, delivering a cohesive, consistent design across the application.
 - Applied SOLID principles to refactor codebases, improving modularity, maintainability and scalability.

SELECTED PROJECT

- LetsGoHalf — Roommate-matching & cost-sharing platform

2025

Next.js, React Native, NestJS, TypeScript

 - Designed, built and shipped a production application to the iOS App Store, reaching 1,000+ users.
 - Implemented real-time messaging (WebSockets), an automated matching engine, identity verification, PDF agreement signing and payment integration.

EDUCATION

- BSc, Mathematics

2016 – 2021

Federal University Oye-Ekiti, Nigeria
